Entrust Adaptive Issuance Instant ID Software

HIGHLIGHTS

Launch your ID card program with confidence

Entrust Adaptive Issuance Instant ID software is the ideal starting point for organizations that want to make their people and premises more secure. Built for a single-user environment, Instant ID software delivers the core tools you need to easily design, print, and manage ID cards and credentials. This user-friendly software offers you a complete solution for issuing basic IDs. Plus, you can easily scale up to another, more feature-rich edition in the Instant ID software suite as your needs grow.

KEY BENEFITS

Ease of use. Drag-and-drop features make the software intuitive and easy to use, allowing you to spend less time learning and more time creating new credentials.

- Browser-based applications do not require an internet connection.
- Provides administrators with an intuitive interface to build the right workflows and card design. Everyday users can automatically follow a standardized process to improve accuracy.
- The Quick Start Wizard gets users from initial login to print with minimal setup and configuration.

Configure to meet your needs. Settings can be configured to allow everyday users the ability to capture the data they want, how they want, while ensuring only the proper information is captured.

Use your existing data. Import data from CSV and ASCII files or integrate directly with Microsoft Access, SQL Server, or MySQL*.

*Available with Instant ID Plus edition
